

CONTACT INFORMATION	Jacob O. Wenegrat Assistant Professor Department of Atmospheric and Oceanic Science University of Maryland, College Park, MD	wenegrat@umd.edu http://wenegrat.github.io
RESEARCH INTERESTS	Geophysical fluid dynamics, atmosphere and ocean dynamics, submesoscale processes, boundary-layer processes	
EDUCATION	Ph.D., Oceanography 2015 School of Oceanography University of Washington, Seattle, WA. M.S., Applied Mathematics 2014 Department of Applied Mathematics University of Washington, Seattle, WA. M.S., Oceanography 2013 Department of Oceanography University of Washington, Seattle, WA. B.S., Symbolic Systems 2006 Stanford University, Stanford, CA.	
APPOINTMENTS	Assistant Professor , University of Maryland, College Park 2020 - present Department of Atmospheric and Oceanic Science Burgers Program for Fluid Dynamics (affiliate) Applied Mathematics & Statistics, and Scientific Computation (affiliate) Postdoctoral Fellow , Stanford University 2016 - 2019 Department of Earth System Science • Supervisor: Leif Thomas Graduate Research Assistant , University of Washington 2010 - 2015 School of Oceanography • Advisor: Michael J. McPhaden	
REFEREED PUBLICATIONS (GROUP MEMBERS IN BOLD)	[24] Wegener, R., J.O. Wenegrat , V. Lance, and S. Lama , 2025: Spatial variability of marine heatwaves in the Chesapeake Bay. <i>Estuaries and Coasts</i> . in press. [23] Uchoa, I., J.O. Wenegrat , Lionel Renault, 2025: Sink of eddy energy by submesoscale sea surface temperature variability in a coupled regional model. <i>J. Phys. Oceanogr.</i> in press. [22] Chor, T., and J.O. Wenegrat , 2025: The turbulent dynamics of anticyclonic headland wakes. <i>J. Phys. Oceanogr.</i> in press. [21] Whitley, V., and J.O. Wenegrat , 2025: Breaking internal waves on sloping topography: connecting parcel displacements to overturn size, interior-boundary exchange, and mixing. <i>J. Phys. Oceanogr.</i> in press.

Benedek, Z., J.W.J. Liang, and **J.O. Wenegrat**, 2014: System for providing strategies to reduce the carbon output and operating costs of a workplace. U.S. Patent 8812971.

Tung, T.S., and **J.O. Wenegrat**, 2013: System for providing strategies for increasing efficiency of data centers. U.S. Patent 8395621.

EXTERNAL
FUNDING

Lagrangian evolution of bottom-boundary generated potential vorticity anomalies and their controls on submesoscale flows and mixing in the interior. Thomas, **Wenegrat**. ONR, \$562k to UMD, 2024-2029.

Collaborative Research: Interactions of internal waves with submesoscale currents in the bottom boundary layer. **Wenegrat**, Thomas. NSF, \$985k, \$418k to UMD, 2024-2027.

Submesoscale air-sea coupling during S-MODE. **Wenegrat**. NASA, \$53k, 2021-2024.

Atmosphere-Ocean coupling on (sub)mesoscales: US participant travel support. **Wenegrat**. NASA, \$25k, 2023.

Submesoscale instabilities and the forward energy cascade in seamount wakes. **Chor, Wenegrat**. NSF, \$314k, 2023-2025.

	Collaborative Research: The Internal Wave Spectrum and Boundary Mixing in the Sub-Tropical South Atlantic. Polzin, Bracco, Kuehl, Wenegrat , Blain. NOPP/NSF, \$5.4 mil., \$340k to UMD, 2022-2025.
	CISESS: AOSC: A Global Census of Coastal Marine Heatwave Evolution and Drivers Using High-Resolution Satellite Data and Computer Vision. Wenegrat . NOAA, \$90k, 2022-2023.
	Collaborative Research: Tracing the physics of submesoscale entrainment and subduction. Wenegrat , Fox-Kemper, Brett. NSF, \$1.1 mil., \$568k to UMD, 2022-2025.
	Collaborative Research: EarthCube Capabilities: ICESpark: An Open-Source Big Data Platform for Science Discoveries in the New Arctic and Beyond. Xie, Yu, Farrell, Hurr, Wenegrat . NSF, \$1.2 mil., \$956k to UMD, 2021-2024.
	Air-sea interaction and coupling at the ocean submesoscale. Wenegrat . NASA, \$361k, 2021-2024.
	Submesoscale instabilities in the ocean bottom boundary layer: A new pathway for energy dissipation. Wenegrat . NSF, \$383k, 2020-2023.
	Submesoscale instabilities near the sea-floor and their effects on the ocean circulation and mixing. Thomas, Wenegrat . NSF, \$325k, 2018-2020.
COMPUTATIONAL GRANTS	Realistic Nested LES of Ocean Mixing in the Gulf of Mexico, Wenegrat . UCAR CISL-CHAP, 13.75 mil core-hours, 2024-2026.
	High-performance computing for Tracing the Physics of Submesoscale Entrainment and Subduction. Wenegrat , Fox-Kemper, Brett. UCAR CISL-CHAP, 26.5 mil core-hours, 2022-2026.
INVITED TALKS	The Gulf Stream: Barrier, blender...or breadmaker? <i>DEEPS colloquium</i> , Brown University, Providence, RI, 2024.
	From fronts to turbulence: mechanisms and global impact of forward energy transfers at the submesoscale, <i>Ocean Transport and Eddy Energy Climate Process Team Annual Meeting</i> , Brown University, Providence, RI, 2024.
	Geostrophic turbulence, <i>Burgers Program Summer School on Turbulence</i> , College Park, MD, 2024.
	Submesoscale symmetric instability: a pathway to turbulence at the surface and in the abyss, <i>CICESE</i> , Ensenada, MX, virtual, 2024.
	Getting to the bottom of the submesoscale, <i>NOAA Coastal Ocean Modeling Seminar</i> , virtual, 2024.
	Effects of Air-Sea Interaction on Submesoscale Processes, <i>OASIS air-sea flux from space webinar series</i> , virtual, 2024.
	The Gulf Stream—Barrier, blender, or...Breadmaker?, <i>University of Delaware</i> , Lewes, DE, 2023.
	Submesoscale pathways to turbulence at the surface and in the abyss, <i>Rutgers University</i> , New Brunswick, NJ, 2023.
	Submesoscale symmetric instability: a pathway to turbulence in the Gulf Stream and abyss, <i>Old Dominion University</i> , Norfolk, VA, 2023.
	The Gulf Stream—Barrier, Blender, or...Breadmaker?, <i>Science on Tap</i> , College Park, MD, 2022.

Submesoscale instabilities and mixing at the bottom. *Gordon Research Conference on Ocean Mixing*, Mount Holyoke, MA, 2022.

Submesoscale instabilities in the bottom boundary layer: A new frontier for ocean dynamics. *Scripps Institution of Oceanography*, La Jolla, CA, 2022.

The Gulf Stream—Barrier, Blender, or...Breadmaker? Enhanced Mixing at Sharp Ocean Fronts. *Johns Hopkins Center for Environmental & Applied Fluid Mechanics*, Baltimore, MD, 2022.

The Gulf Stream—Barrier, Blender, or...Breadmaker? Enhanced Mixing at Sharp Ocean Fronts. *Horn Point Laboratories*, Cambridge, MD, 2021.

The Gulf Stream—Barrier, Blender, or...Breadmaker? Enhanced Mixing at Sharp Ocean Fronts. *George Mason University AOES Department Seminar*, Fairfax, VA, 2021.

The Deep Ocean, Menagerie of Instabilities? *Burgers Symposium Lecture, University of Maryland*, College Park, MD, 2020.

From the surface to the abyss: Effects of the submesoscale on the large-scale circulation. *SOEST, University of Hawaii*, Honolulu, HI, 2019.

Submesoscale turbulence in the bottom boundary layer: A new frontier for oceanography. *AOSC, University of Maryland*, College Park, MD, 2019.

Air-sea interaction at the ocean submesoscale: Ekman transport and surface winds. *NASA Jet Propulsion Laboratory*, Pasadena, CA, 2019.

Into the deep: Submesoscale turbulence in the ocean bottom boundary layer. *Climate and Global Dynamics Seminar, NCAR*, Boulder, CO, 2018.

Submesoscale processes in the abyss: A new frontier for ocean dynamics. *Research School for Earth Sciences, Australian National University*, Canberra, AUS, 2018.

From the submesoscale to the gyre scale: How small-scale fronts modify the properties of ocean gyres. *Mechanical Engineering Department Seminar, University of California, Santa Barbara*, Santa Barbara, CA, 2018.

From the submesoscale to the gyre scale: How small-scale fronts modify ocean mode waters. *Oceanography Department Seminar, Dalhousie University*, Halifax NS, Canada, 2017.

Mixed layer dynamics and the diurnal cycle in the equatorial Atlantic Ocean. *Equatorial Dynamics of the Atmosphere and Oceans, AGU Fall Meeting*, San Francisco, CA, 2014.

Mixed layer dynamics and the diurnal cycle in the equatorial Atlantic Ocean. *Physics of Oceans and Atmospheres Seminar, Oregon State University*, Corvallis, OR, 2014.

SELECTED
PRESENTATIONS

Submesoscale processes in the high and low potential vorticity bottom boundary layer *AGU Fall Meeting*, Washington DC, 2024. Talk.

Submesoscales are a significant turbulence source in the global ocean surface boundary layer *Gordon Research Conference on Ocean Mixing*, Mount Holyoke, MA, 2024. Poster.

Submesoscale currents modify internal wave reflection off topography *Ocean Sciences Meeting*, New Orleans, LA, 2024. Talk.

Submesoscale currents modify internal wave reflection off topography *NOPP Internal Waves Workshop*, Gulfport, LA, 2024. Talk.

More than a length scale: air-sea interaction at the submesoscale, *US CLIVAR Mesoscale and Frontal Scale Air-Sea Interaction Workshop*, Boulder, CO, 2023. Talk.

Cross-scale interactions and prediction *US CLIVAR Process Study and Model Improvement annual panel meeting*, Norfolk, VA, 2022. Talk.

The current feedback on stress modifies the Ekman buoyancy flux at submesoscale fronts *Ocean Sciences Meeting*, virtual, 2022. Talk.

It's fronts all the way down: Response of the atmosphere to a submesoscale front. *CLIVAR Surface Currents Workshop*, San Diego, CA, 2020. Poster.

Forced symmetric and centrifugal instability in the bottom boundary layer *Ocean Sciences Meeting*, San Diego, CA, 2020. Poster.

Enhanced mixing across the gyre boundary at the Gulf Stream front. *Environmental Fluid Mechanics and Hydrology Seminar, Stanford University*, Stanford, CA, 2019. Talk.

Symmetric instability in the ocean bottom boundary layer: A new pathway for energy dissipation? *California Geophysical Fluid Dynamic Symposium*, Pasadena, CA, 2019. Talk.

Submesoscale turbulence in the ocean bottom boundary layer: Baroclinic, symmetric, and centrifugal instabilities. *22nd Conference on Atmospheric and Oceanic Fluid Dynamics*, Portland, ME, 2019. Talk.

Submesoscale instabilities in the bottom boundary layer. *Workshop on BBL turbulence and the Ocean Overturning Circulation, MIT*, Boston, MA, 2018. Talk.

Into the deep: Submesoscale turbulence in the bottom boundary layer. *SLS, MIT*, Boston, MA, 2018. Talk.

Into the deep: Submesoscale turbulence in the bottom boundary layer. *PO Seminar, WHOI*, Woods Hole, MA, 2018. Talk.

Submesoscale baroclinic instability in the bottom boundary layer. *Ocean Mixing Conference*, Gordon Research Conference, Andover, NH, 2018. Poster.

PV dynamics in the turbulent boundary layer. *Program on Planetary Boundary Layers*, Kavli Institute for Theoretical Physics, Santa Barbara, CA, 2018. Talk.

Submesoscale baroclinic instability in the bottom boundary layer. *Frontiers in Oceanic, Atmospheric, and Cryospheric Boundary Layers*, Kavli Institute for Theoretical Physics, Santa Barbara, CA, 2018. Poster.

Submesoscale baroclinic instability in the bottom boundary layer: A mechanism for enhanced vertical buoyancy fluxes. *Ocean Sciences Meeting*, Portland, OR, 2018. Talk.

From the submesoscale to the gyre scale: How small-scale fronts modify ocean mode waters. *Climate, Atmospheric Sciences, and Physical Oceanography Seminar, Scripps Institution of Oceanography*, San Diego, CA, 2018. Talk.

Submesoscale symmetric instability and observed rapid horizontal dispersion across the Gulf Stream. *CLIVAR Ocean Carbon Hotspots Workshop*, Monterey, CA, 2017. Poster.

Ekman transport in balanced currents with curvature. *21st Conference on Atmospheric and Oceanic Fluid Dynamics*, Portland, OR, 2017. Talk.

Effects of the submesoscale on the potential vorticity budget of ocean mode waters. *21st Conference on Atmospheric and Oceanic Fluid Dynamics*, Portland, OR, 2017. Poster.

Submesoscale dynamics in the turbulent boundary layer. *Oceanography Department Seminar, Dalhousie University*, Halifax NS, Canada, 2017. Talk.

Competing frictional and diabatic potential vorticity fluxes at ocean fronts. *AGU Fall Meeting*, San Francisco, CA, 2016. Talk.

Ocean boundary layer dynamics and air-sea interaction. *Physical Oceanography Dissertation Symposium (PODS) IX*, Honolulu, HI, 2016. Talk.

Dynamics of the diurnal cycle in the upper ocean: Theory, observations, and future challenges. *Environmental Fluid Mechanics and Hydrology Seminar, Stanford University*, Stanford, CA, 2016. Talk.

Implications of spatially varying boundary layer turbulence at a frontal system. *48th International Liège Colloquium on Ocean Dynamics*, Liège, Belgium, 2016. Talk.

The time-dependent vertical structure of mixed layer currents. *Ocean Sciences Meeting*, New Orleans, LA, 2016. Poster.

On the influence of winds, waves, and fronts on ocean currents. *School of Oceanography, University of Washington*, Seattle, WA, 2015. Talk.

Wind, waves, and fronts: An analytic solution to the generalized Ekman model. *20th Conference on Atmospheric and Oceanic Fluid Dynamics*, Minneapolis, MN, 2015. Talk.

Dynamics of the surface layer diurnal cycle in the equatorial Atlantic Ocean. *Physical Oceanography Seminar, University of Washington*, Seattle, WA, 2014. Talk.

A WKB approximation to the generalized Ekman equation, with application to the diurnal cycle. *Applied Mathematics MS Symposium, University of Washington*, Seattle, WA, 2014. Talk.

The diurnal cycle of near-surface stratified shear flow at 0°N, 23°W. *Ocean Sciences Meeting*, Honolulu, HI, 2014. Poster.

Near-surface shear flow on the Equator. *Physical Oceanography Seminar, University of Washington*, Seattle, WA, 2013. Talk.

Near-surface shear, stratification, and the mixed layer momentum budget at 0°N, 23°W. *Tropical Atlantic Variability Conference*, Kiel, Germany, 2012. Poster.

Near-surface eddy viscosity at 0°N, 23°W inferred from ADCP and wind stress data. *Ocean Sciences Meeting*, Salt Lake City, UT, 2012. Poster.

ADVISING

Postdoctoral researchers:

Tomás Chor	2020 - present
<i>Postdoctoral Researcher, Atmospheric and Oceanic Science</i>	

Zhihua Zheng	2023 - present
<i>Postdoctoral Researcher, Atmospheric and Oceanic Science</i>	

Graduate students:

Victoria Whitley	2020 - present
<i>PhD Candidate, Applied Mathematics & Statistics, and Scientific Computing</i>	

Igor Uchôa Farias	2021 - present
<i>PhD Student, Atmospheric and Oceanic Science</i>	

Zihan Chen <i>PhD Student, Atmospheric and Oceanic Science</i>	2023 - present
Logan Knudsen <i>PhD Student, Atmospheric and Oceanic Science</i>	2023 - present

TEACHING

University of Maryland, College Park, MD

Instructor, *Oceanography of the Chesapeake and Mid-Atlantic*

Spring 2022-2024

Instructor, *Physical Oceanography*

Fall 2020-2024

Stanford University, Stanford, CA

Project Mentor, *SURGE Undergraduate Summer Research*

Summer 2018

University of Washington, Seattle, WA

Instructor, *Physics across Oceanography*

Winter 2015

Course Development, *Huckabay Teaching Fellow*

Autumn 2014

SERVICE AND LEADERSHIP

Science

- Co-Chair US CLIVAR Working Group on Small-scale processes in the upper ocean and their interaction with the Earth's climate (2024 - present)
- Steering Committee, ONR Researching Interior Ocean Trajectories (RIOT) DRI (2024 - present)
- Science Team, NASA Sub-Mesoscale Ocean Dynamics Experiment (S-MODE, 2020 - present)
- Co-Chair US CLIVAR Process Study and Model Improvement Panel (2024 - present)
- Panelist US CLIVAR Process Study and Model Improvement Panel (2021 - 2024)

Conferences and Workshops

- Co-Chair: *Summer School on Tracer mixing in fluids across planetary scales* Brin Mathematics Research Center, UMD 2024
- Co-Chair: *Atmosphere-ocean coupling at (sub)mesoscales*, Lorentz Center, Netherlands, 2023
- Co-Chair: *Turbulent Mixing of the Ocean Surface Boundary Layer: Observation, Simulation, and Parameterization*, Ocean Sciences Meeting 2022
- Moderator: *Turbulent Mixing of the Ocean Surface Boundary Layer: Observation, Simulation, and Parameterization*, Ocean Sciences Meeting 2020
- Chair: *Air-Sea Interaction at the Mesoscale and Submesoscale*, Ocean Sciences Meeting 2018

Reviewing

- Editor, *Journal of Physical Oceanography* (2023 - present)
- Associate Editor, *Journal of Physical Oceanography* (2020-2022)
- 2020 AMS Editor's award, *Journal of Physical Oceanography*
- *Journal of Physical Oceanography*, *Journal of Fluid Mechanics*, *Geophysical Research Letters*, *Journal of Geophysical Research*, *Nature*, *Quarterly Journal of the Royal Meteorological Society*, *BAMS*, *Ocean Dynamics*, *Ocean Sciences*, *TOS*, *Scientific Reports*, *Journal of Atmospheric and Oceanic Technology*, *JAMES*, *Continental Shelf Research*, *Journal of Climate*
- NASA Physical Oceanography proposal review panels, NSF Physical Oceanography panelist and ad hoc proposal reviewer, NERC proposal reviewer, US-Israel Binational Science Foundation reviewer
- Pre-publication chapters of: *Atmospheric and Oceanic Fluid Dynamics II*, G.H. Vallis.
- NOAA Ernest F. Hollings Undergraduate Scholarship program.

University

- Graduate Admissions Chair (2024 - present)

- Graduate Admissions Co-Chair (2020 - 2024)
- Lead for AOSC-AGU Bridge Program Partnership (2020 - present)
- Faculty search committee AOSC (2024)
- Seminar Committee Chair (2020 - 2022)
- DMV Oceans Lunch Seminars organizer (2020 - 2022)
